About me

I am an adaptable professional based on Lemnos, ready to transition into software development. With a strong work ethic and problem-solving skills, I am committed to continuous learning and passionate about technology. My goal is to deliver quality solutions in a dynamic environment.

Eager to embrace new challenges, I am driven to deliver high-quality solutions in a fast-paced environment.

Projects

2020 — **Bachelor's Thesis Project - Laravel Web App**
I developed a web application using Laravel, an open-source PHP framework renowned for its elegance and efficiency. This platform empowers teachers to seamlessly submit, edit, and manage theses. Once a thesis is uploaded, students can browse through available projects, search for topics that align with their interests, and express their desire to participate.

2024 — **Master's Project - Wordpress-Woocommerce**
I create an eShop for a football store using WordPress and WooCommerce, featuring a sleek and modern design that highlights the quality of products.

2024 — **Master's Project - Greenhouse Control Application Using Thingspeak**
I created a system for monitoring water pressure, humidity, and temperature using the ESP8266 NodeMCU Development Board and the Analog Water Pressure and DHT22 sensors. Additionally, I ensured wireless monitoring of the measurements via Wi-Fi and timely notifications via email using the ThingSpeak platform.

Work Experience

2019-2020 — **Telecommunication Field Technician** — OTE - Intership
Intership as telecommunication field technician at Cosmote. The object of the practice was the construction of new lines and the repair of network faults.

2021-2021 — **Telecommunication Field Technician** — Nova
Worked as telecommunication field technician at Nova. The content of the job was the same as the internship. Line construction of new lines and the repair of network faults.

2021-2024 — **Telecommunications Technician** — Greek Army
I served as a Telecommunication technician for the Greek Army. I was responsible for the maintenance of the technological stuff.
